Take 8.4 sick days per
Annum costing you as
An employer £659 per
Employee.***

About us

Reflect Screening Services Ltd offers a comprehensive screening and Vaccination service delivered by a network of Medical Professionals to Corporate and Individual clients.

Flu – The Facts

'Influenza' or flu is a highly infectious virus. Symptoms include headache, chills, high fever, aching joints, sore throat, and a dry cough. The illness lasts about a week and affects the nose, throat and lungs. There are three main strains of influenza virus – A, B and C and within these strains the virus is constantly changing.

Why Vaccinate

Flu is highly infectious and extremely hard to avoid especially if you travel to and from work on crowded public transport. Providing your staff with a flu jab has a number of great benefits.

COST EFFECTIVE

Save money and cut employee absenteeism and maintain a healthy productive workforce.

EMPLOYEE WELLBEING

Providing vaccinations for your workforce sends out the message that you are committed to their health.

PROMOTING A HEALTHIER WORKPLACE

Providing Vaccination for the workforce is the best possible prevention against the flu virus there is.

CONVENIENT SERVICE

Our Medical professionals provide a completely mobile service. One of our Nurses can come to your site at a time and date that suits you.

How the Vaccine Works

The vaccine is very effective and protects against the strains advised by the World Health Organisation that are most likely to attack the UK.

Our Service

We keep the process simple, just let us know how many vaccinations you require, where and when you wish for them to take place and we will do the rest. We make it a hassle free simple procedure. Our nurses have all the equipment required and we will ensure all vaccinations are delivered to the highest possible clinical standards.
